Datus, November 32.—There is little 40 note of interest occurring in business circles. Trade was fair in a rote il way, while the wholesaie desiers report their transactions about as they have been in the past two months. In conversation with one of our heaviest desiers to day, he remarked that the wholesale trade of this city had not failen off as it has done in other cities. Is St. Louis business is quoted dull and purchases light. In New Orleans the transactions, outside of cotton, are confined in a great measure to sugar, molasses and rice, and the Galveston papers represent the general market quiet. Here we have as yet experienced no falling off in any line of business and if there is a change it is for the betterr Our grocery merchants all report that they have all the trade they desire, and under the present outlook of shortcotton crops would rather curtail than increase their business. It may not be known generally, but nevertheless it is true, that we have at least two wholesale grocery houses in this city whose annual trade will aggregate nearly or quite as much as any two of the largest houses in the same line in St. Louis. The dry goods trade is also much larger than it is generally supposed to be by those who have not watched it closely, and the same may be said of drugs, hardware, jewelry and many other wholesale interests. There is no material change to specially note in prices, Our regular quotations indicate the slight changes which have occurred in the last twenty-four hours.

Large quantities of potatoes are being shipped from Toronto to Detroit, Lafayette St. Louis and other cities in the Western States. The potato yield in some parts o, Ontario is below the average, while in other sections it is an average crop. On the whole the crop will be short. Notwithstanding this, there is a prospect of a decrease in price as the cold weather sets in. Even with a short crop, there is a considerable surplus over what is necessary for home consumption, and the heavy Europia or crop has only diverted the market to the Western States.

Mrs. Winslow's Soothing Syrup

Mrs. Winslow's Soothing Syrup.

Rev. Sylvanus Cobb thus writes in the Boston Christian Freeman:—We would by no means recommend any kind of medicine which we did not know to be good—particularly for infants. But of Mrs. Winslow's Soothing Syrup we can speak from knowledge; in our own family it has proved a blessing indeed, by giving an infant troubled with colic pains, quiet eleep, and the parents can appreciate these blessings. Here is an article which works to perfection, and which is harmless; for the sleep which it affords the infant is perfectly natural, and the little cherub r wakes as "bright as a button." And during the process of teething, its value is incalculable. We have frequently heard mothers say that they would not be without it from the birth of the child till it had finished the teething siege, on any consideration whatever. Sold by all druggists.
